Talisman dances the Marra Mamba

TALISMAN Mining has unveiled a number of encouraging iron ore drillhole results from its North Marra Mamba prospect in the East Pilbara region of Western Australia.

Results from the prospect – part of the company's Wonmunna iron ore project – included two 4m sections of 61.63% iron and 61.57% iron.

Other lengthier finds measured 22m at 56.6% iron and 32m at 55.43% iron.

The Wonmunna iron ore project lies close to the West Angelas, Area C and Hope Downs iron ore operations, run by major mining companies.
